New Course of Study the Basis of Gradation.

Park Cay, Sept. 5.—The course of study adopted during the text book convention at Sast Lake for the public schools of Utah has been made the basis for gradation and promotion by County Superintendent McCoskie in the public schools of Summit county. The course furnishes a valuable outline for oral work in mature study, beginning with color, form, qualities, directions, plants, etc., laying a foundation for geography, man drawing, etc., and in the higher grades, for all the natural sciences. Physiology is taught orally up to the seventh grade, one text book being used instead of three, as heretofore. A course in phonics is introduced to teach pupils to recognize new words without the sid of the dictionary, training the ear to detect the accent. A new and important feature is the introduction of the study of civics, the object being to acquaint the pupils with the different modes of government and particularly our own. A thorough study of the outline for work in the is branches therein set forth will addressentially in successful teaching.

SPRINGVILLE SUGAR PLANT. Proposition Favorably Considered By the Association.

Springville, Sept. 5 .- At the regular meeting of the local branch of the National Beet Growers' association routine business was transacted. The proposition for building a new factory was favorubly considered and the building is now supposed to be an accomplished face.

Springville will not celebrate Labor day to any great extent. So far as heard the only public observance of the day will be by the Woman's Relief society, which will give a festival at Miner's hall.

A Fine Smake Story.

Salina Press: We often hear of snake etorics. Here is a true one: While Ben Travis and Edgar White of Emery county, were cutting posts in the mountains east of Ireland's ranch last week, they found and killed 40 rattleweek, they found and kines we rattle-enakes, the largest one measuring six fer in length and having 18 rattles. Another party killed ten snakes near the same place the week before. It seems to be a great year for snakes and snake stories.

SUGAR AND MOLECULAR Samp-

Washington, Sept. 5.- The treasury department has reported the regulations governing the sampling and classification of the imported sugars and inclusion of the imported sugars and inclusion of the imported sugars and included the rew north law, and they will be formally promaignated to-morrow. One of the principal and most important changes made in the old regulations which were made in 1883 is a provision requiring that the "resample" of sugars shall be taken at the time the original sample is taken. This provision has been expedient to revert and suspicion of irregulation. Many new provisions are also included in the regulations with the object of securing uniformity at the different loboratories where sugars are tested. As soon as the change can be made only the half shadow polariscope will be employed in making tests, instead of the coast and goodede survey, in order to secure militum results. The tests for the classification of sugars have been changed so that the average tests agreeing within two-tenths of 1 per cent shull govern the classification. Under the act of 1883 the determining department has reported the regulacent chall govern the classification. Under the act of 1883 the determining

Visit Here at This Time Is Purely Personal.

Washington, Sept. 5.—Assistant Sceretary Day of the state department, who returned to Washington today, was asked whether or nor it was true, as reported, that Consul Lee, on his way to the United States, would not return to Havana when his vacation was over.

Judge Day replied: The regular 20 days annual leave had been granted to General Lee, and so far as he was award there was no reason to suppose the general Lee, and so far as he was award there was no reason to suppose the general would not return to Havana when the 30 days had expired. The understanding here is that General Lee's visit to the United States at this time is purely on personal business, although it is probable his presence here will be taken advantage of by the officials for a consultation with him recarding affairs in Cuba. He is expected to return to Havana about the let of October. Washington, Sept. 5 .- Assistant Secre-

a man or woman loses flesh and vitality, there is something wrong in the blood. The start of it is likely to be in the stomach or bowels, and if they are put in order the trouble gradually stops. Consumption is a germ disease, but if the blood is good, and keeps the lungs strong and healthy, the germs cannot find a place to lodge and are east off. If there's a weak spot, the germ will find it. Even after that, strong and pure blood will strengthen the lungs so that they can gradually rid themselves of the germs. It is by creating strength and purity that Dr. Pierce's Golden Medical Theory cures consumption and other that Dr. Pierce's Golden Medical Dis-covery cures consumption and other liseases. It makes one gain flesh—not discusses. It makes one gain them not liably, only fat, but sound, firm, useful, healthy flesh. Hundreds of patients have testified to its wonderfully benedelal effects in many diseases and especially in incipient consupmition.

one camplate was given the pages rank at the remember of Zion lodge No. 12, Knights of Pythias, last Friday evening, and considering that come of the officers did the work for the first time, it was decidedly good. The hall wan more comfurtably filled with members and visitors, who enjoyed the work very much. There was a committee of one amounted to act in conjugation. with the other lodges for the nurses of entertaining the daughters of Temple Justus R., Rachbone Sisters, who will vie't Salt Lake City this month. Remarks were made by Past Charpellors Ryan and Evana, and Chancellor Commander Ward of Moneter ledge No. 1t. Next Friday evening the rank of equive will be conferred. All Knights layled.

For some time, owing to the heated season, there have been no meetings of Earle Galle conclave No. 10%, A. O. U. W. The conclave, like all other iodges, has suffered during the summer by non-attendance of its members, but with the coming of fall and cooler weather it is the intention of this organization to push forward and make best one of the most popular orders of Workmen in the city.

The instal meeting of the fall and winter school will be held on next Wednesday evening at the lodge room on Market street, at which a goodly number of Moralkans will be in attendance, no doubt.

At the last mee long of the order, be-fore the "vacation," Grand Master Workman Hamm of this jurisdiction was initiated into the order, and to say that, he was interested and amused goes without saying.
